

Are your Child's Immunizations Up to date for Kindergarten?

Vaccines are a healthy choice for your child. They provide immunity and prevent disease.

Two vaccines are free for Kindergarten age children starting at age 4:

- Tdap-IPV or approved product: protects against tetanus diphtheria, pertussis (whooping cough) and polio
- MMRV: protects against measles, mumps, rubella and varicella (chickenpox)

If Public Health does not have up to date information about your child's immunizations, you will get a letter from your local Public Health Unit.

As soon as possible please complete and return this letter to your local Public Health Unit or school (attention School Nurse).

For an immunization appointment contact your family doctor, local pharmacist (for those 5 years of age and older), or Public Health.

To book an immunization appointment with Public Health:

- Residents of Fraser East (Mission, Abbotsford, Chilliwack, Agassiz and Hope), call **604-702-4906**
- Residents in any other area of Fraser Health, call **604-476-7087**
